PROJECTS

- **Front-End Replication Project - TikTok**
  As a Information System Student, I undertook an engaging project to replicate the front-end design of the popular social media platform, TikTok. This task provided me with an opportunity to enhance my HTML, CSS, and JavaScript skills while gaining hands-on experience in front-end development.
  Working on this project, the tech stack I used :
  - HTML
  - CSS(Bootstrap)
  - Javascript
- **Full Web Development for Library Management**
  As part of the culmination of my studies, I successfully completed a final project focused on developing a library management website. This project allowed me to integrate my knowledge and skills in web development and gain practical experience in designing and building an online-based library solution.
  In this project, I was responsible for designing and developing a website capable of managing library collections, members, loans, and other administrative functions. I utilized a combination of web technologies such as HTML, CSS, JavaScript, and PHP to build the necessary features.
  Working on this project, the tech stack I used :
  - HTML
  - CSS(Bootstrap)
  - Javascript
  - PHP(Laravel)

ORGANIZATIONAL EXPERIENCE

- **Department Coordinator - Mobile Legends Tournament, Mojokerto**
  During my involvement in the vibrant gaming community of Mojokerto, I actively participated as a Department Coordinator in a Mobile Legends tournament event. This experience allowed me to demonstrate leadership skills, effective teamwork, and the ability to manage a team of 9 members.

SKILLS

- **Hard Skills:** Dart, HTML, CSS, Javascript, PHP, C++, C#
- **Soft Skills:** Team Work, Leadership, Problem Solving, Time Management, Communication Skill, Up to-date, Negotiating.
